Attorney General Notes

Crime in South Dakota is a compilation of the efforts of law enforcement statewide. This publication reflects the hard work and dedication that reporting agencies have put forth to accurately report crime in their jurisdictions. Statewide participation is essential because effective law enforcement requires accurate crime statistics in order to identify trends in criminal activity.

In 2005 the total participation rate was 92% with 114 agencies participating. We continue to strive for 100% participation each year to achieve the most accurate stats. The Crime Reporting Program is a voluntary program. Without local law enforcement assistance, the following crime data would not be available. Below is a quick glance at the publication's contents.

SOUTH DAKOTA CRIME SUMMARY 2005

In 2005, 14,504 crime index offenses were reported by local law enforcement agencies. This is a decrease of 4.9% from the total of 15,255 reported in 2004.

Index crime offenses include: murder/non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson.

The FBI estimate of South Dakota's population for 2005 is 775,933. The index crime rate per 100,000 population for 2005 was 1,869. The index crime rate for 2004 was 1,979 per 100,000 population. This is a 5.6% decrease in the index crime rate.

The total number of reported violent index crimes (murder, rape, robbery, and aggravated assault) was 1,222. This represents a decrease of 2.4% from the total of 1,252 reported in 2004.

Violent crime accounted for 8.43% of total index crimes reported in 2005.

Collectively, property crimes (burglary, larceny, motor vehicle theft, and arson) decreased by 5.1% from 14,003 reported in 2004 to 13,282 reported in 2005. Property crime accounted for 91.57% of total crime index offenses reported in 2005.

The 10,015 larceny offenses reported in 2005 accounted for 69.05% of total index crimes.

More than \$11 million worth of property was reported stolen in 2005, with 30% of that amount reported as recovered by law enforcement officials.

South Dakota law enforcement agencies reported 37,619 arrests in 2005. A total of 36,974 arrests were reported in 2004. In 2005, juvenile arrests accounted for 20.5% of the total arrests.

The number of reported arrests in 2005 for DUI increased to 6,333 from 5,730 reported in 2004. This represents an increase of 10.5%.

Arrests for drug offenses increased 31.9% from a 2004 total of 2,871 to 3,787 in 2005.

Introduction

Uniform Crime Reporting (UCR) and National Incident-Based Reporting System (NIBRS) are cooperative efforts among city, county, and State law enforcement agencies. The State Clearinghouse (Criminal Statistical Analysis Center) for UCR and NIBRS provides participating agencies with the necessary supplies required for crime reporting. Reports are completed and forwarded to the State Clearinghouse on a monthly basis. The Clearinghouse then reconciles all reports and submits them to the Federal Bureau of Investigation where national reports such as Crime in the United States are generated.

Certain constraints should be noted in interpreting the collective data for the State. It must be noted that Indian Reservations are not included as they do not report crime statistics to the State Clearinghouse. Comparing data year to year gives a good picture of crime trends; however, keep in mind when comparing these figures to previous years that there is a difference in the number of agencies reporting each year. Also, these figures cannot be compared to data released by the FBI, as the FBI uses estimations for non-reported data. The deadline for submitting 2005 crime statistics to the Federal Bureau of Investigation was March 14, 2006.

For presentation in this book, NIBRS data were converted to the historical summary UCR format. The NIBRS database was constructed to allow for such conversion so that UCR's long-running time series could continue.

It must be noted that some of the larger agencies were in the initial phases of converting to a different crime reporting software during 2005 and the SAC (Criminal Statistical Analysis Center) used a different technology company to convert the NIBRS data to the UCR format. Every effort has been made to allow for all of the data to be converted from one system to another on both the local and State levels. To better accommodate the local agencies, data from 2005 was still being received by the SAC through May of 2007.

Starting with Crime in South Dakota 2002, Arson and Attempted Rape were included as part of the index crime numbers for the first time. This was to provide more uniformity between the FBI and the South Dakota Criminal Statistical Analysis Center. Arson is included as a category in the index crimes, and attempted rape is included as part of the Forcible Rape numbers.

The population figures included in this publication were obtained from the Federal Bureau of Investigation. The FBI used a formula that takes the U.S. Census Bureau's estimated 2004 figures times the projected growth rate for South Dakota. The resident county populations sum of 775,933 was used. The information included in this report was generated by a combination of these population figures and data collected through the Uniform Crime Reporting System and the National Incident-Based Reporting System from the participating agencies.

The figures are based on statistics that were analyzed for a twelve month period beginning January 1, 2005 and ending December 31, 2005. However, a few agencies did not report for an entire twelve month period. The information in this publication will reflect this partial participation. The data included in this report can only be as accurate as the data provided by each reporting agency.

Index Crimes

Total Index Crimes

14,504 Offenses Reported
2,870 Offenses Cleared
3,477 Persons Arrested

The following offenses make up the Total Index Crime: Murder/Non-Negligent Manslaughter, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson. The above-listed crime classifications were selected at the inception of the UCR Program in 1929 because they were considered by law enforcement and criminologists at the time to be the most serious and the most commonly reported crimes occurring in all areas of the Nation. Arson was added to the Crime Index Total in 1979 by congressional mandate.

Index crimes can be further broken down into two categories, Violent Crimes and Property Crimes. In the UCR program, the offenses of Murder/Non-Negligent Manslaughter, Forcible Rape, Robbery, and Aggravated Assault are classified as Violent Crimes. For these crimes, one offense is counted for each victim.

Burglary, Larceny, Motor Vehicle Theft and Arson are classified as Property Crimes. For these crimes, one offense is counted for each distinct operation, except in the case of motor vehicle theft for which one offense is counted for each stolen vehicle.

- In 2005, there were 14,504 index crimes reported. Sixty-nine percent of the total index crimes were larcenies.
- Property Crimes make up 91.57% (13,282) of the total index crime while violent crimes account for 8.43% (1,222) of the total index crime.

Index Crimes Per 100,000 Population

One of the most meaningful crime statistics used in Uniform Crime Reporting is the Crime Rate. This rate is the number of offenses per 100,000 inhabitants. To compute rates, divide the jurisdiction's population by 100,000 and divide the number of offenses in each class by that answer. The answer is the number of offenses per 100,000 inhabitants and is the crime rate for that offense.

Example:

Population for jurisdiction: 775,933 (South Dakota's 2005 Population)

Number of larcenies for that jurisdiction: 10,015

Divide 775,933 by 100,000 = 7.76

Divide 10,015 by 7.76 = 1,291

The Crime Rate for larceny in South Dakota for 2005 is 1,291 per 100,000 inhabitants.

Murder, Non-Negligent and Negligent Manslaughter

Murder and Non-Negligent Manslaughter

14 Offenses Reported

14 Offenses Cleared

11 Persons Arrested

Murder and non-negligent manslaughter, as defined by the FBI's Uniform Crime Reporting Handbook, is the willful killing of one human being by another. As a general rule, any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime is classified as a Criminal Homicide.

The classification of this offense, as for all other Crime Index offenses, is based solely on law enforcement investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. Not included in this classification are deaths caused by negligence, suicide, or accident; justifiable homicides; traffic fatalities; and attempts to murder or assaults to murder, which are scored as aggravated assaults.

In two (14%) cases, the victim was a two year old child. Seven (50%) of the victims were male, and seven (50%) were female. Ten (71%) of the victims were white and four (29%) were Native American. Six (43%) of the murders were the result of domestic violence.

All 13 offenders were male. Eight (62%) of the offenders were white and five (38%) were Native American. The circumstance in 12 (86%) of the murders was a single victim/single offender.

Self was indicated as the weapon of choice in five (36%) of the murders reported. A handgun was the weapon used in four (29%) murders. Knife was used in three (21%) murders, blunt object was a weapon in one (7%) murder and poison was used for one (7%) murder.

A Supplementary Homicide report is submitted by the participating law enforcement agencies in all murder/non-negligent manslaughter cases. The report provides pertinent information including the age, sex, and race of the victim and offender(s), and any circumstances which led to the commission of the crime. Beginning January 1, 1988 the requirement for the collection of ethnic origin was discontinued; therefore, the ethnicity of victims and offenders is no longer contained in this supplementary report.

- .10% of the Crime Index Total

Note: The number of offenders and number arrested may or may not equal. Some offenders commit the crime in one year and are arrested in another year. In cases of a murder/suicide there cannot be an arrest.

Negligent Manslaughter, as defined by the FBI's Uniform Crime Reporting Handbook, is the killing of another person through gross negligence. Not included in this category are deaths of persons due to their own negligence; accidental deaths not resulting from gross negligence; and traffic fatalities.

However, arrests in connection with traffic fatalities are classified as Manslaughter by Negligence in the arrest section. The findings of a court, coroner's inquest, etc., do not affect classifying or scoring; these are law enforcement statistics.

Rape

Rape

365 Offenses Reported
69 Offenses Cleared
76 Persons Arrested

Rape, as defined by the FBI's Uniform Crime Reporting Handbook, is the carnal knowledge of a female forcibly and against her will. Rapes or attempts accomplished by force or threat of force are classified as forcible regardless of the age of the female victim. In the case that several men attack one female, only one forcible rape is counted. Statutory rape or other sex offenses are not recognized under this category. Sex attacks on males are excluded and classified as assaults or "other sex offenses" depending on the nature of the crime and the extent of injury.

Juveniles consisted of 18% of the total arrests made for rape. Twenty-four (32%) of the persons arrested were in their twenties. Of the 365 offenses reported, 14 (4%) were attempted forcible rapes.

Of the 76 persons arrested, 52 (68%) were white; 19 (25%) were Native American and five (7%) were black.

Statutory rape is defined as the carnal knowledge or the attempted carnal knowledge of a female with no force used and the female victim is under the legal age of consent. However, if the female victim is under the legal age and is forced against her will to engage in sexual intercourse, the incident should be classified as a rape by force.

Robbery, as defined by the FBI's Uniform Crime Reporting Handbook, is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear. Robbery involves a theft or larceny but is aggravated by the element of force or threat of force.

Since the underlying motive for robbery is to obtain money or property from a person, every instance of this offense involves at least one victim who has suffered physical and/or psychological trauma. One offense is reported for each separate robbery occurrence.

The total amount of property stolen from robberies in 2005 was \$42,517. The average amount stolen was \$343. Other Dangerous Weapons was used in 43 (35%) of the robberies reported in 2005. Supplementary robbery information, such as the location of the robbery, is obtained from the "Property Stolen by Classification" report.

Aggravated Assault, as defined by the FBI's Uniform Crime Reporting Handbook, is the unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under one of the aggravated assault categories. Attempts are included since it is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

Although other assaults (simple) are not within the Crime Index, they are collected under other assaults (simple) as a quality control matter and for the purpose of looking at total assault violence.

Of the total 3,125 arrests made for other assaults (simple), 474 (15%) were juveniles. Over half (65%) of those arrested were white (2,024). Twenty-eight percent (868) were Indian, 215 (7%) were Black and 18 (.6%) were Asian.

Burglary, as defined by the FBI's Uniform Crime Reporting Handbook, is the unlawful entry of a structure to commit a felony or a theft. Breaking and entering with intent to commit a larceny; housebreaking; safecracking; and all attempts at these offenses should be counted as burglary. The use of force to gain entry is not required to classify an offense as burglary. Burglary is categorized into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

Thirty-four percent (140) of those arrested were juveniles.

Larceny, as defined by the FBI's Uniform Crime Reporting Handbook, is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Larceny and theft mean the same thing in Uniform Crime Reporting. It includes crimes such as shoplifting, pocket picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, thefts from buildings, thefts from coin-operated machines, etc., in which no use of force, violence, or fraud occurs. This crime category does not include embezzlement, confidence games, forgery, and worthless checks. Motor vehicle theft is excluded from this category and is counted separately because of the great volume of thefts in that particular category. All thefts and attempted thefts are counted.

The total amount reported stolen for larceny offenses was \$5,351,869 with an average loss of \$534 per larceny. Twenty percent (1,962) was from motor vehicles with an average loss of \$425. The All Other category (thefts which do not fit the specific categories listed) had an average amount stolen of \$747. Less than one-half (43%) of the total larceny arrests were juveniles.

Motor Vehicle Theft, as defined by the FBI's Uniform Crime Reporting Handbook, is the theft or attempted theft of a motor vehicle. A motor vehicle is defined as a self-propelled vehicle that runs on land surface and not on rails. All automobiles taken by persons not having lawful access even though the vehicles are later abandoned, including a joy ride, should be classified in this category.

Arson, as defined by the FBI's Uniform Crime Reporting Handbook, is any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling, church, college, jail, meeting house, public building, motor vehicle, aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are to be classified as arsons.

The hierarchy rule does not apply to arson, this crime is always reported even in multiple-offense situations. Incidents in which persons are killed as a direct result of arson are classified as both criminal homicides and arsons. Similarly, the number of persons severely injured during an arson is reported as aggravated assaults along with the arson. When multiple index offenses are committed during the same distinct operation as the arson offense, the most serious is reported along with the arson. Arson-related deaths and injuries of police officers and firefighters, unless willful murders or assaults, are excluded from UCR reporting due to the hazardous nature of their professions.

In 2005, there were 75 arson offenses reported with a total property value loss of \$234,260. The average loss value was \$3,123. Seventeen (68%) of those arrested were juveniles.

Offenses by Contributor Supplemental Information

Crime in South Dakota is an annual publication based upon Uniform Crime Reporting (UCR) statistics. The UCR program is the basis for collecting data on selected crimes by participating agencies throughout South Dakota. Prior to 1990, this data collection effort was handled directly by the FBI with approximately thirty-two agencies reporting in 1989. On January 1, 1990, the Criminal Statistics Analysis Center became the State Clearinghouse for UCR data. Following is a table that depicts the percentage of population covered along with the number of reporting agencies from 1990 to present:

Reporting Year	Percent Of Population Covered	# Of Reporting Agencies	Reporting Year	Percent Of Population Covered	# Of Reporting Agencies
1990	85%	82	1998	82%	84
1991	90%	96	1999	78%	80
1992	88%	89	2000	82%	88
1993	83%	75	2001	82%	86
1994	78%	64	2002	87%	98
1995	80%	73	2003	95%	137
1996	82%	76	2004	91%	129
1997	82%	89	2005	92%	114

This publication of Crime in South Dakota 2005 represents approximately 92% of the population as reported by 50 Sheriff's Offices, 63 Police Departments and the Division of Criminal Investigation.

Shellie Slattery, Sioux Falls Police Department (center) is the recipient of the Coler-Williams Award. Presenting the award are Attorney General Larry Long (left) and Craig Hansen, S.D. Peace Officer's Association (right).

Shellie attended the 121st Session of the 12 Week Basic Law Enforcement Class held January 10, 2005 through April 1, 2005.

Classification of Offenses

Uniformity in reporting under the South Dakota Uniform Crime Reporting System is based on the proper classification of offenses reported to or known by law enforcement. The adoption of the National System of Uniform Crime Reporting included the utilization of the offense classifications of that system. In view of the need for compatibility with the National System, "offenses" under the program are not distinguished by designation of "misdemeanors", "felonies" or violations of municipal ordinances. The explanations of offense classifications may vary slightly from language used by those familiar with South Dakota State Law. However, the major categories of offense classification remain the same between the national and state level.

Part I Offenses

The Part I offenses include: Murder and Non-Negligent Manslaughter, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson. The above-listed crime classifications were selected at the inception of the UCR Program in 1929 because they were considered by law enforcement and criminologists at the time to be the most serious and the most commonly reported crimes occurring in all areas of the Nation. Arson was added to the Part I Offenses in 1979 by congressional mandate.

Part II Offenses

The Part II offenses encompass all other crime classifications outside of those defined as Part I offenses. In November 1932, the Uniform Crime Reporting Program adopted a Standard Classification of Offenses for the compilation of criminal statistics. This classification was devised and adopted in order that law enforcement, judicial, and penal statistics might be uniformly compiled in terms of a single classification of offenses. The definitions of the Part II offenses that follow include some of the offense titles described in state, county or municipal code. These titles have been included as descriptive data to aid in determining the offenses that should be included or excluded from each classification.

1. HOMICIDE

- 1a. Murder and Non-Negligent Manslaughter - *The willful (non-negligent) killing of a human being with malice aforethought.*

General Rule - Any death due to a fight, quarrel, argument, assault or commission of a crime.

- 1b. Manslaughter by Negligence - *The unlawful killing of a human being, by another, through gross negligence.*

General Rule - The killing may result from the commission of an unlawful act or from a lawful act performed with gross negligence.

Not included - Suicides, accidental deaths, assaults to murder, traffic fatalities, and attempted murders.

2. FORCIBLE RAPE

- 2a. Rape by Force - *The carnal knowledge of a female forcibly and against her will.*

General Rule - Forcible rape of a female, excluding carnal abuse (statutory rape) or other sex offenses.

- 2b. Attempted Forcible Rape - *All assaults and attempts to rape.*

3. ROBBERY

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

- 3a. Firearm - Operation in which any firearm (revolvers, automatic pistols, shotguns, rifles, pellet guns, etc.) is used as a weapon or employed as a means of force to threaten the victim or put the victim in fear.
- 3b. Knife or Cutting Instrument - Operation in which a knife or cutting instrument (knife, razor, hatchet, axe, scissors, glass, dagger, ice pick, etc.) is employed as a weapon or as a means of force to threaten the victim or put the victim in fear.
- 3c. Other Dangerous Weapon - Operation in which any other object or thing (club, acid, explosive, brass knuckles, etc.) is used as a weapon.
- 3d. Strong Arm (Hands, Fists, Feet, Etc.) - Muggings and similar offenses where no weapon is used, but strong-arm tactics (limited to the use of personal weapons such as hands, arms, feet, fists, teeth, etc.) are employed or their use is threatened to deprive the victim of possessions.

4. ASSAULT

An assault is an attempt or offer, with unlawful force or violence, to do physical injury to another.

- 4a. Firearm - All assaults wherein a firearm (revolvers, automatic pistols, shotguns, rifles, pellet guns, etc.) is used or its use is threatened.
- 4b. Knife or Cutting Instrument - All assaults wherein a knife or cutting instrument (knife, razor, hatchet, axe, scissors, glass, dagger, ice pick, etc.) is used as a cutting or stabbing object or their use is threatened.
- 4c. Other Dangerous Weapon - Assaults resulting from the use or threatened use of any object (club, bricks, jack handles, tire irons, bottles, brass knuckles, or other blunt instruments, explosives, acid, lye, poison, scalding water) as a weapon.
- 4d. Strong Arm (Hands, Fists, Feet, Etc.) - The attacks by use of personal weapons (hands, arms, feet, fists, teeth, etc.) which result in serious or aggravated injury.

5. BURGLARY

The unlawful entry or attempted forcible entry of any dwelling, attached structure, public building, shop, office, factory, storehouse, apartment, house trailer (used as a permanent structure), warehouse, mill, barn, camp, other building, ship or railroad car to commit a felony or larceny.

General Rule - For Uniform Crime Reporting purposes the terms "Burglary" and "Breaking and Entering" are considered synonymous.

- 5a. Forcible Entry - All offenses where force of any kind is used to enter unlawfully a locked structure, with intent to steal or commit a felony. This includes entry by use of a master key, celluloid, or other device that leaves no outward mark but is used to open a lock. Concealment inside a building, followed by the breaking out of the structure is also included.
- 5b. Unlawful Entry (No Force) - Any unlawful entry without any evidence and is achieved by the use of an unlocked door or window.
- 5c. Attempted Forcible Entry - Situations where a forcible entry burglary is attempted.

6. LARCENY

The unlawful taking, carrying, leading, or riding away of the property from the possession or constructive possession of another.

General Rule - All larcenies and thefts resulting from pocket-picking, purse-snatching, shoplifting, larceny from auto, larceny of auto parts and accessories, theft of bicycles, larceny from buildings, and from coin-operated machines. Any theft that is not a robbery or the result of breaking and entering is included. Embezzlement, larceny by bailee, fraud or bad check cases are excluded.

7. MOTOR VEHICLE THEFT

The theft or attempted theft of a motor vehicle.

- 7a. Autos - The thefts of all sedans, station wagons, coupes, convertibles, and other similar motor vehicles which serve the primary purpose of transporting people from one place to another.
- 7b. Trucks and Buses - Vehicles specifically designed to transport people on a commercial basis and to transport cargo.
- 7c. Other Vehicles - All other motor vehicles such as snowmobiles, motorcycles, motor scooters, trail bikes, mopeds, golf carts, etc.

8. OTHER ASSAULTS (SIMPLE), NOT AGGRAVATED

Assaults and attempted assaults where no weapon was used or which did not result in serious or aggravated injury to the victim are included as other assaults.

Examples of local jurisdiction offense titles which would be included in "other assaults" are:

- A. Simple assault
- B. Minor assault
- C. Assault and battery
- D. Injury by culpable negligence
- E. Resisting or obstructing an officer
- F. Intimidation
- G. Coercion
- H. Hazing
- I. Attempts to commit the above

9. ARSON

The willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling, church, college, jail, meeting house, public building, motor vehicle, aircraft, personal property of another, etc. should be scored as arson.

General Rule - Incidents in which persons are killed as a direct result of arson are classified as both criminal homicides and arsons.

10. FORGERY AND COUNTERFEITING

In the majority of states, forgery and counterfeiting are treated as allied offenses. Place in this class all offenses dealing with the making, altering, uttering or possessing, with intent to defraud, anything false in the semblance of that which is true. Include:

Include all offenses not otherwise classified and all attempts to commit any of the above.

27. SUSPICION

While "suspicion" is not an offense, it is the grounds for many arrests in those jurisdictions where the law permits. After examination by law enforcement officers, the prisoner is either formally charged or released. Those formally charged are entered in one of the Part I or Part II offense classes. This class is limited to "suspicion" arrests where persons arrested are released by police.

28. CURFEW AND LOITERING LAWS (Persons under 18)

Count all arrests made for violations of local curfew or loitering ordinances where such laws exist.

29. RUNAWAY (Persons under 18)

For purposes of the UCR program, report in this category apprehensions for protective custody as defined by local statute. Arrest of runaways from one jurisdiction by another agency should be counted by the home jurisdiction. Do not include protective custody actions with respect to runaways taken for other jurisdictions.

Glossary

ADULT: A person 18 years of age or older.

ARREST: The act of taking into custody by authority of law, to charge him or her with a criminal offense or to initiate juvenile proceedings.

CLEARANCE: An offense is cleared, or solved for crime reporting purposes, when at least one person is arrested, charged with commission of the offense and turned over to the court for prosecution. Provision is also made for clearance in certain "exceptional" situations.

CLEARANCE RATE (TOTAL): The number of clearances divided by the total number of offenses, expressed as a percent. The formula is:

$$\frac{\text{Number of Clearances} \times 100}{\text{Number of Offenses}}$$

Offenses are reported as they become known to law enforcement agencies. Clearances are scored as they are made. Therefore, it is possible for the clearance rate to exceed 100 percent for a time period. Both clearances by arrest and exceptional clearances are included.

COMMERCIAL HOUSE: A robbery subcategory which tallies the number of actual offenses and the value of stolen property obtained in robberies within commercial establishments except gas stations, convenience stores, and banking-type institutions. These businesses are excluded because separate categories for each are provided. Include supermarkets, department stores, restaurants, taverns, finance companies, hotels, motels, etc.

CRIME INDEX: Classification of seven offenses used as an indicator of crime. Crime Index offenses are murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson.

CRIME RATE: The number of known offenses per 100,000 population. The formula is:

$$\frac{\text{Number of Offenses} \times 100,000}{\text{Population}}$$

Crime rates per population unit are employed to remove the effect of differing sizes of law enforcement service areas, permitting the examination of reported crime on an equalized population basis. "Per 100,000 population" is generally utilized to preclude the rates for infrequently occurring offenses from being expressed as very small numbers.

EXCEPTIONAL CLEARANCE: When the law enforcement agency has enough information to make an arrest, but cannot locate the offender to do so, then, the complaint is considered solved or cleared by exceptional circumstance, rather than by arrest. For example, a crime may be cleared by exceptional circumstance when an offender has died, moved out of state, or when extradition has been refused.

HIERARCHY RULE: The hierarchy assigns crimes in an order according to their seriousness. When using the hierarchy to obtain crime index figures, only the most serious category of crime is counted in any single criminal event. The hierarchy of the index is murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft.

JUVENILE: A person 17 years of age or younger.

JUVENILE ARREST: For purposes of Uniform Crime Reporting, a juvenile should be counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be tallied. When a law enforcement officer places a juvenile in custody for a specific offense, including status offenses, an "arrest" is scored. Law enforcement contacts with juveniles where no offense has been committed are not scored as arrests. Juveniles taken into custody for their own protection, such as in neglect cases, are not scored as being arrested if they have not committed an offense.

UCR uses the term "arrest" for both adults and juveniles to describe apprehension.

JUVENILE CRIME: The only measure of juvenile crime available through Uniform Crime Reporting is the number of juvenile arrests (number, rate, and percentage of total arrests).

PROPERTY CRIMES: Subclassification of the Crime Index which encompasses burglary, larceny, motor vehicle theft, and arson.

STATUTORY RAPE: The carnal knowledge or the attempted carnal knowledge of a female with no force used and the female victim is under the legal age of consent.

UNFOUNDED COMPLAINTS: A complaint which is determined through investigation to be false or baseless. If the investigation shows that no offense occurred nor was attempted, the reported offense can be unfounded for Uniform Crime Reporting purposes. The findings of a coroner, court, jury, or prosecutor do not unfound offenses or attempts which law enforcement investigations establish to be legitimate.

VICTIM: A victim, in this publication, is an individual person who has had a violent crime committed against him or her. Victims, here, are described by age, sex, and race.

VIOLENT CRIMES: Subclassification of the Crime Index which encompasses murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault.
