Foreword

Crime in South Dakota is an annual publication based upon Uniform Crime Reporting (UCR) statistics. The UCR program is the basis for collecting data on selected crimes by participating agencies throughout South Dakota. Prior to 1990, this data collection effort was handled directly by the FBI with approximately thirty-two agencies reporting in 1989. On January 1, 1990, the Criminal Statistics Analysis Center became the State Clearinghouse for UCR data with 85% of the population being covered. Approximately ninety percent (90%) of the population was covered in 1991 with a total of ninety-six agencies reporting. In 1992, forty-nine Sheriffs' Offices and forty Police Departments submitted reports for a total of eighty-nine agencies covering approximately eighty-eight percent (88%) of the State's population. Forty-three Sheriffs' Offices and thirty-two Police Departments reported in 1993 covering approximately 83% of the population in South Dakota.

On January 1, 1994, the South Dakota Criminal Statistics Analysis Center began accepting National Incident-Based Reporting System (NIBRS) data from participating agencies. Uniform Crime Reporting data continues to be collected from agencies in the conversion process. The SDSAC is currently receiving hard copy incident reports from about fifteen law enforcement agencies. The remaining participating agencies are still waiting on various computer programs to begin submitting data on diskette. NIBRS data will allow for more complete, accurate, and timely crime statistics. Because of the many benefits of NIBRS, I strongly encourage all agencies to participate in this crime reporting program. By January, 1995, we hope to have over 87% of the population covered either by UCR or NIBRS data.

I'd like to take this opportunity to recognize everyone involved with this project for your participation and cooperation. The Uniform Crime Reporting Program is a strictly voluntary program and without your assistance, the following crime data would be unavailable.

INTRODUCTION

Uniform Crime Reporting (UCR) is a cooperative effort among city, county, and State law enforcement agencies. The State Clearinghouse for UCR provides participating agencies with the necessary supplies required for Uniform Crime Reporting. Reports are completed and forwarded to the State Clearinghouse on a monthly basis. The Clearinghouse then reconciles all reports and submits them to the Federal Bureau of Investigation where national reports such as Crime in the U.S. are generated.

Certain constraints should be noted in interpreting the collective data for the State. The data included in this publication are based solely on actual figures, not estimated figures, from reports submitted by participating Sheriffs' Offices and Police Departments. These figures cannot be compared to 1992 data because of the difference in the number of reporting agencies, nor can these figures be compared to data released by the FBI, as the FBI estimates for non-reported data.

The population figures included in this publication were obtained from the South Dakota Data Center, University of South Dakota. These figures are currently the most accurate available. The information included in this report was generated by a combination of these population figures and the Uniform Crime Reporting Data collected from the participating agencies.

The statistics were analyzed for a twelve month period beginning January 1, 1993. However, several agencies did not report for an entire twelve month period. The information in this publication will reflect this partial participation. The data included in this report can only be as accurate as the data provided by each reporting agency. These figures are based on data received on or before September 30, 1994.

INDEX CRIMES PER 100,000 POPULATION

One of the most meaningful crime statistics used in Uniform Crime Reporting is the Crime Rate. This rate is the number of offenses per 100,000 inhabitants. This rate can be calculated regardless of the number of inhabitants in a city or county. To compute rates, divide the city's population by 100,000 and divide the number of offenses in each class by that answer. The answer is the number of offenses per 100,000 inhabitants and is the crime rate for that offense.

Example:

Population for jurisdiction - 75,000
Number of burglaries for that jurisdiction - 200

Divide 75,000 by 100,000 = 0.75000
Divide 200 by 0.75000 = 266.67

The Crime Rate for burglary in that jurisdiction is 266.67 per 100,000 inhabitants.

MURDER AND NONNEGLIGENT HOMICIDE

19 Offenses Reported
18 Offenses Cleared
16 Total Persons Arrested

The willful killing of one human being by another. Any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime is counted as a Homicide. Suicides, accidental deaths, assaults to murder, traffic fatalities, and attempted murders are not classified as murder and nonnegligent homicide.

- In 1993, there were 19 murders reported. Of these offenses, 95% were cleared.

In six (32%) of the cases the victim was under 10 years old. Sixty-eight percent of the victims were male, and 74% of the victims were white. Eight (42%) of the murders were the result of domestic violence disputes involving wives, ex-wives, children, and/or girlfriends.

Seventeen (89%) of the offenders were male (only one female offender) and ten (53%) were white. The circumstance in 60% of the murders was a single victim/single offender. Three of the murders reported had a single victim/multiple offender circumstance and two murders had multiple victims/single offender circumstance.

The weapon used in the majority (42%) of the murders was a handgun. Five (26%) of the murders were the result of beatings and blows to the head type injuries where personal weapons such as hands/fists/feet were used. One of the victims was strangled. Other weapons included a rifle, hammer, tire iron, and knife.

A Supplementary Homicide report is submitted by the participating law enforcement agencies in all murder cases. The report provides pertinent information including the age, sex, and race of the victim and offender(s), and any circumstances which led to the commission of the crime. Beginning January 1, 1988 the requirement for the collection of ethnic origin was discontinued; therefore, the ethnicity of victims and offenders is no longer contained in this report.

RAPE

291 Offenses Reported
182 Offenses Cleared
110 Total Persons Arrested

The carnal knowledge of a female forcible and against her will. Rapes or attempts accomplished by force or threat of force are classified as forcible regardless of the age of the female victim. In the case that several men attack one female, only one forcible rape is counted. Statutory rape or other sex offenses are not recognized under this category. Sex attacks on males are excluded and classified as assaults or "other sex offenses" depending on the nature of the crime and the extent of injury.

- In 1993, there were 291 rapes reported. Of these offenses 63% were cleared. Three percent of the total rapes reported were attempted forcible rapes.

Juveniles consisted of 20% of the total arrests made for rape and 32% of the persons arrested were in their 20's. June had the greatest occurrence with 31 rape offenses reported.

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear. Robbery involves a theft or larceny but is aggravated by the element of force or threat of force.

- In 1993, there were 99 robberies reported. Of these offenses 45% were cleared.

Six bank robberies were reported in 1993 with a total amount stolen of \$88,515. The total amount of property stolen in robberies for 1993 was \$128,053. December had the greatest occurrence of robberies with a total of fourteen. The highest average amount stolen(\$14,753) was from the banks. A firearm was used in twenty-four (24%) of the robberies reported in 1993. Supplementary robbery information, such as the location of the robbery, is obtained from the "Property Stolen by Classification" report. Highways, streets, and alleys accounted for 33% of robbery locations with a total of \$7,432 of property being lost and an average stolen of \$225.

517 Total Persons Arrested

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under one of the aggravated assault categories. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used.

- In 1993, there were 919 aggravated assaults reported. Of these offenses 71% were cleared.

The greatest occurrence of aggravated assaults was in July with 110 offenses. A knife was used in 24% of the aggravated assaults. Twenty-one percent of the total arrests for aggravated assault were juveniles.

OTHER ASSAULTS

OTHER ASSAULTS - SIMPLE, NOT AGGRAVATED

All assaults which do not involve the use of a firearm, knife or cutting instrument, or other dangerous weapon and in which there were no serious or aggravated injuries to the victims. Although simple assaults are not within the Crime Index, they are collected under other assaults as a quality control matter and for the purpose of looking at total assault violence.

- In 1993, there were a total of 3,827 other assaults reported. Of these offenses 76% were cleared.

Of the total arrests for other assaults, 18% were juveniles.

BURGLARY

3,496 Offenses Reported
735 Offenses Cleared

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Larceny and theft mean the same thing in Uniform Crime Reporting. Motor vehicle theft is not included and is counted separately because of the great volume of thefts in that particular category. All thefts and attempted thefts are counted.

- In 1993, there were 13,139 larceny offenses reported. Of these offenses 32% were cleared.

August had the greatest occurrence with 1,368 offenses. The total amount reported stolen for larceny offenses was \$3,962,520 with an average loss of \$302 per larceny. Twenty percent (20%) of the total stolen was taken from motor vehicles with an average loss of \$362. The highest number of offenses (2,756) were shoplifting. MOTOR VEHICLE THEFT

725 Offenses Reported
328 Offenses Cleared
238 Total Persons Arrested

The theft or attempted theft of a motor vehicle. A motor vehicle is defined as a self-propelled vehicle that runs on land surface and not on rails. All automobiles taken by persons not having lawful access even though the vehicles are later abandoned, including a joyride, should be classified in this category.

- In 1993, there were 725 motor vehicle thefts totalling \$3,144,191. Of these offenses 45% were cleared.

June had the greatest occurrence with 87 offenses. Three-fourths (75%) of the motor vehicle thefts were automobiles and three-fourths (75%) of the locally stolen motor vehicles were also recovered locally. Juveniles were arrested for 69% of the motor vehicle thefts.

ARSON

77 Offenses Reported
33 Offenses Cleared
60 Total Persons Arrested

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are to be classified as arsons.

- In 1993, there were 77 arson offenses reported with a total property value loss of \$314,010. Of these offenses 43% were cleared. Sixty-nine percent (69%) of those arrested were juveniles.

The greatest occurrence was in the month of March with a total of eleven offenses. A total of sixty arson arrests were made with over half (56%) of the persons arrested being 14 years old and under. Sixty-one percent (61%) of all arsons occurred in a structure with single occupancy/residential being the most common (30%) of the structures. The highest total value loss was for single occupancy/residential with a total of \$115,904.

ARREST DATA

38,252 Total Arrests
28,432 Adult Arrests
9,820 Juvenile Arrests

The total arrests submitted by the agencies in 1993 were 38,252. The greatest number of arrests (11%) occurred in August. The Uniform Crime Reporting Program offenses are divided into two groupings, Part I and Part II offenses, and it is as important and essential to maintain uniformity in the data collection of persons arrested as it is in the offense data collection conducted for Part I crimes only. The Part II offenses encompass all other crime classifications outside those defined as Part I offenses. The Part I offenses include: Criminal Homicide, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson. Arrests for Part I offenses total 5,698. Larceny had the greatest total arrest rate (10%) out of the Part I offenses. Of the total arrests in the Part II offenses, 18% were made for liquor laws. Only 3% of the total arrests made in 1993 were drug abuse related.

LAW ENFORCEMENT OFFICERS ASSAULTED

**51 Total Officers Assaulted
86% Cleared**

In 1993, there were fifty-one (51) assaults on law enforcement officers reported. Of those assaulted, there were over one-third (37%) that received injuries. Eighty-six percent of the total assaults reported were cleared.

Disturbance calls (family quarrels, etc.) had the greatest occurrence (31%) in the type of activity involved with the assault of a law enforcement officer. Most assaults (27%) occurred between the hours of 12:01 am - 2:00 am. The most common type of assignment consisted of a one officer vehicle that was assisted. Almost three-fourths (73%) of the assaults happened with this circumstance. Hands, fists, and feet are most commonly used (89%) in the assaults that result in an injury. The same was true in 88% of the cases where there was no injury involved in the assault.

DEFINITIONS

Part I Offenses

Criminal Homicide

- Murder and Nonnegligent Homicide - The willful (nonnegligent) killing of one human being by another. Any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime is counted as a homicide. Not included in this category are suicides, accidental deaths, assault to murder, traffic fatalities, and attempted murders.
- Manslaughter by Negligence - The killing of another person through gross negligence. Not included in this category are deaths of persons due to their own negligence; accidental deaths not resulting from gross negligence; and traffic fatalities.

Forcible Rape

- Rape by Force - The carnal knowledge of a female forcibly and against her will. Sex attacks on males are excluded and should be classified as assaults or "other sex offenses".
- Attempted Forcible Rape - All assaults and attempts to rape.

Robbery

- The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Firearm - Operation in which any firearm is used as a weapon or employed as a means of force to threaten the victim or put the victim in fear.

Knife or Cutting Instrument - Operation in which a knife, broken bottle, razor, ice pick, or other cutting or stabbing instrument is employed as a weapon or as a means of force to threaten the victim or put the victim in fear.

Other Dangerous Weapon - Operation in which a club, acid, explosive, brass knuckles, or other dangerous weapon is employed or its use is threatened.

Strong-arm - Hands, Fists, Feet, etc. - Muggings and similar offenses where no weapon is used, but strong-arm tactics (limited to the use of personal weapons such as hands, arms, feet, fists, teeth, etc.) are employed or their use is threatened to deprive the victim of possessions.

Assault

Firearm - All assaults with revolvers, automatic pistols, shotguns, zip guns, rifles, etc.

Knife or Cutting Instrument - Number of assaults wherein weapons such as knives, razors, hatchets, axes, cleavers, scissors, glass, broken bottles, ice picks, etc. are used as cutting or stabbing objects or their use is threatened.

Other Dangerous Weapon - Assaults resulting from the use or threatened use of any object as a weapon which does or could result in serious injury. The weapons in this category would include but not be limited to clubs, bricks, jack handles, tire irons, bottles, or other blunt instruments used to club or beat victims.

Aggravated Injury - The attacks by use of personal weapons such as hands, fists, feet, etc. which result in serious or aggravated injury.

Simple, Not Aggravated - All assaults which do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which there were no serious or aggravated injuries to the victims.

Burglary

- The unlawful entry of a structure to commit a felony or a theft.

Forcible Entry - All offenses where force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony.

Unlawful Entry; No Force - These situations involve no force and are achieved by use of an unlocked door or window.

Attempted Forcible Entry - Situations where a forcible entry burglary is attempted.

Larceny

- The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

All larcenies and thefts resulting from pocket-picking, purse-snatching, shoplifting, thefts from motor vehicles (except theft of motor vehicle parts and accessories), motor vehicle parts and accessories, bicycles, from buildings, and from coin-operated machines. Embezzlement, frauds or bad check cases are excluded.

Motor Vehicle Theft

- The theft or attempted theft of a motor vehicle.

Autos - The thefts of all sedans, stationwagons, coupes, convertibles, and other similar motor vehicles which serve the primary purpose of transporting people from one place to another.

Trucks and Buses - Vehicles specifically designed to transport people on a commercial basis and to transport cargo.

Other Vehicles - All other motor vehicles such as snowmobiles, motorcycles, motor scooters, trailbikes, mopeds, golf carts, etc.

Arson

- Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Incidents in which persons are killed as a direct result of arson are classified as both criminal homicides and arsons.

Part II Offenses

Other Assaults

- Assaults and attempted assaults where no weapon was used or which did not result in serious or aggravated injury to the victim are included as other assaults.

- Apprehensions for protective custody as defined by local statute. Do not include protective custody actions with respect to runaways taken for other jurisdictions.

Juvenile Arrests

- For purposes of Uniform Crime Reporting, a juvenile should be counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be tallied. Arrests should not be scored in cases of:

1. police "contacts" with juveniles where no offense was committed;
2. juveniles taken into custody for their own protection but no crime was committed (e.g., neglect cases).

Hierarchy Rule

- Locate the offense that is highest on the Part I offense list, score that offense, and ignore the other offenses involved in the incident. Counting only the highest offense on the list and ignoring all others, applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts. An exception to the rule is arson.

Unfounded Complaints

- A complaint which is determined through investigation to be false or baseless. If the investigation shows that no offense occurred nor was attempted, the reported offense can be unfounded for Uniform Crime Reporting purposes. The findings of a coroner, court, jury, or prosecutor do not unfound offenses or attempts which law enforcement investigations establish to be legitimate.

Clearances by Arrest

- An offense is "cleared by arrest" or solved for crime reporting purposes when at least one person is:

1. arrested;
2. charged with the commission of the offense; and
3. turned over to the court for prosecution (whether following arrest, court summons, or police notice). Although no physical arrest is made, a clearance by arrest can be claimed when the offender is a person under 18 years of age and is cited to appear in juvenile court or before other juvenile authorities.

Several crimes may be cleared by the arrest of one person, or the arrest of many persons may clear only one crime.

Exceptional Clearances

- If the following questions can all be answered "yes," the offense can then be cleared "exceptionally" for crime reporting purposes:

1. Has the investigation definitely established the identity of the offender?
2. Is there enough information to support an arrest, charge, and turning over to the court for prosecution?
3. Is the exact location of the offender known so that the subject could be taken into custody now?
4. Is there some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender?
